Spa menu

The key to Health

Unique for our country is the indoor salt swimming pool with water from the Pomorie spring. This water springs from a depth of 70 meters, which determines its purity and mineral composition. It is many times saltier than sea salt and has a strong anti-inflammatory and analgesic effect. Improves metabolism throughout the body. According to the physicochemical analysis, the water has a high mineralization (56428.8 mg/l) and belongs to the strong mineralized waters. It has a temperature of 35° C and an alkaline reaction (pH 7.8). It is characterized as sodium chloride sulfate (15254.8 – 25829.4 – 8443.7 mg / l), containing metasilicic acid and fluorine.

Mud treatment

The mud procedures applied in Grand Hotel Pomorie have strong anti-inflammatory and analgesic effects, it also improves the metabolism in the whole organism. They are suitable for the treatment of pain in the knees, hips, lower back and spine. One of the unique features of the mud from the salty lake in Pomorie is the extremely positive effect that it has on the reproductive system of the human body and treatment of infertility.

Lye treatment

The Black Sea lye is the end product of salt production in Pomorie. It is obtained from the rapa (lake water) of the salty lakes in Pomorie and Burgas after the evaporation of the water in the salt pans and the crystallization of the salt. The unique healing lye properties are due to its rich mineral and organic composition. In terms of content of biologically active substances, it contains all ingredients of the sea water and rapeseed, but in much higher concentrations. It is similar in composition to the mud solution, due to which it has effects similar to the healing mud. It contains calcium, sodium, magnesium, chlorine, bromine, sulfates, bicarbonates and others predominates.

Physiotherapy

The physiotherapy sector is located on the second level of the Medical SPA center in Grand Hotel Pomorie. Several rooms are equipped with high-frequency and low-frequency currents, magnetophoresis, cryophoresis and thermophoresis, laser and others are applied. These medical procedures have a strong anti-inflammatory and analgesic effect.

Kinesitherapy

We offer the preparation of an individual program for physical therapy, analytical gymnastics and specialized therapeutic gymnastics with mechanotherapy as treatment of diseases on the musculo-skeletal system such as coxarthrosis, discopathy, disc herniation and others.

We offer treatment and prevention of over 45 types of diseases of:

Spa etiquette

- The appropriate clothing for the territory of the SPA center consists a bathing suit, clean slippers and a swimming hat. It is recommended to use the robe from the room.

- It is advisable to avoid consuming heavy foods, alcohol or caffeine before or immediately after visiting the spa.

- To maintain an atmosphere of calm in the relaxation areas, we kindly ask you not to speak loudly in the relaxation areas.

- It is necessary to take a shower before using all water and thermal facilities.

- When visiting saunas, always place a towel on the bench you are sitting on.

- Do not use cosmetics that are not intended for the thermal area.

- Jumping and diving in water facilities is not allowed.

- It is forbidden to smoke, bring food and drinks to the spa.

- Every parent should take care of the safety and comfort of their children.

- Personal values must be kept. The spa does not take responsibility for lost or damaged personal belongings of the guests.

- The use of a sauna or steam bath during pregnancy is not recommended, as well as for people who cannot withstand high temperature with high blood pressure or too low blood pressure, asthma and other respiratory problems.

- Grand Hotel Pomorie is not responsible for accidents or injuries as a result of non-compliance with the rules and restrictions of the spa.

Reservations for procedures

Advance booking guarantees that you will receive the desired procedure at a time convenient to you. You can book an appointment from SPA reception. Please inform the SPA receptionist if you suffer from certain health problems or pregnancy. If necessary, you can consult our doctor. In order to fully enjoy the therapy, it is good not to be late for the procedure and to come 10 minutes before the scheduled time. Delay in therapy would shorten the duration of the procedure and its effectiveness.

Gift vouchers

All services in the spa can be purchased as a gift for your loved ones, friends and relatives for a variety of special occasions. Gift vouchers are valid for three months from the date of purchase. The mentioned procedures can be replaced by others after consultation and confirmation by the SPA administrator.

**We hope you will enjoy pleasant hours of relaxation and rest.
Your feedback and recommendation is important to us!**

**If you need information, reservation and other questions,
please contact the SPA Reception!**
